Insurance fraud is growing rapidly every day. It not only effects the insurance company, but all of us as consumers. RISK is committed to providing quality Insurance Fraud Training to all Integral Anti-Fraud personnel as required by our clients to help combat and reduce insurance fraud.

RISK provides course topics on Insurance Fraud and Investigations. Our courses have been developed by Insurance Fraud personnel from all over the globe. RISK provides a cost effective means to identify and combat insurance fraud through education. This method of delivery is through our On-Line Fraud Training Centers. RISK provides a full library of Insurance Fraud and Investigation courses and will customize courses to meet our clients additional needs. Online students have the convenience of taking courses whenever they want. Our program allows users to start and stop without losing their place or data.

RISK takes care of the rest – from administration, to record keeping, to providing certificates of completion and administrative access to account holders or SIU. Administrators can see at the click of a mouse which personnel have completed the required courses. *Training has never been so easy!*

Customized Courses include:

- Insurance Fraud Training Courses
- Your company's SIU procedures, guidelines and contacts
- Your company's SIU manuals
- Any of your company's specific training material

All material is editable and can be updated as needed

Customized Training Center

- Branded to look like your company
- Secure & private URL
- Access for tracking and auditing company training
- Access to real-time reporting and analysis
- Ability to post additional company material or training
